Responsibility

This collection reflects a commitment to thoughtful design. Inspired by nostalgia and the evolution of memory, the collection incorporates high-quality materials and personal craftsmanship to ensure longevity and reduce wasteage. I prioritized fabric choices, focusing on natural fibers, responsible dyeing techniques and innovative fabric manipulation.

Every piece is designed with care to celebrate artistry, inviting wearers to reflect on their sense of home while honoring the planet and the people involved in its creation.

Statement

DRIES VAN NOTEN

DRIES VAN NOTEN

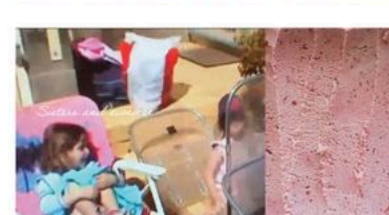

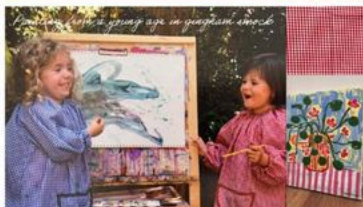

Concept Statement: Inspired by my childhood beach, Bronte, and initiated by my move to Amsterdam, The collection, "Colouring Nostalgia" explores how returning to a place that once felt like home can evoke nostalgia, belonging, and identity. The collection captures the emotional journey of revisiting places filled with memories, while highlighting the vacation-like joy and idealized perspective that often accompanies our experience.

This collection invites wearers to reflect on their own memories, identity and the dreamlike sensation of escaping into the comfort of their past, as if "holidaying" in their own story.

DRIES VAN NOTEN

The contrast between black and white and vibrant color symbolizes the evolution of memories over time. The monochrome elements reflect the nostalgia of the past, while the vivid pops of color embody the rose-tinted lens through which we view our familiar places, seeing them as beautiful and significant.
